Electric laboratory desk

- The high load capacity, easy cleanability, and chemical resistance make this desk excellent for laboratory use.
- The quiet and smooth height adjustment allows for easy and quick changes to the working position. Programmable memory settings simplify switching between different working heights.
- Under-desk cabinets and drawers can be mounted to the table frame or equipped with casters.
- We have selected high-quality, commonly used dimensions and materials for our standard solutions.
- The custom solutions are always tailored to meet the specific needs of the client.

Feel free to contact us, and our experts will be happy to help you choose the right solutions.

Standard

Description	Product code	Standard dimensions [mm]			Additional information
		Width	Depth	Height	
Electric laboratory desk	RL-S-T2	600 – 2,300*	600, 700**, 800	670 -1,320	
Electric laboratory desk	RLp-S-T2	700 – 2,300*	600, 700**, 800	770 – 1,420	On casters
Electric laboratory corner desk	RL-K-S-T2	,280 – 2,300*	1,280 – 2,300*	670 – 1,320	Worktop depth 600 or 800 mm, specified in the order. Note: The worktop has a seam if required by its size.

* Widths available in 100 mm increments.
** In tables with a depth of 700 mm, a 100 mm deep free space remains for building services (e.g., utilities).

Custom

In addition to the standard models, we also manufacture desks according to the client's specifications. In the custom solutions, dimensions, materials, and features are entirely up to the client.

Feel free to ask our experts for more information, and let's design the right solutions together!
