Cold water tap, with handle under the tap and fixed spout

Product code: BRKVA-200

- Easy-to-use cold water tap with a bottom-operated valve
- The horizontal dimension of the spout is 200 mm, equipped with a hose nozzle.
- The tap includes flexible 700 mm inlets with 1/2″ female thread. Pressure-sleeve also possible.
- The tap's surface material is highly resistant to chemicals used in a laboratory.
- The tap is also available in other variations, such as tap with wrist lever handle. Ask more from our experts.

We especially recommend the bottom-operated valve tap for installation zones within furniture groups where the upper part of the tap remains hidden behind furniture or technical structures.
