

Module

- The module is a standalone furniture unit that can be pre-fitted at the factory with electrical wiring and lighting, allowing it to be delivered to the site fully ready for use.
- There is space behind the frame, allowing room for building services running along the wall.
- The worktop and upper cabinets are attached to a vertical rail, where the VISU Deco mounting profile enables fully stepless height adjustment.
- A continuous work surface spanning the full depth of the unit provides an optimal user experience.
- In the workbench, there are no vertical legs at the front edge, which improves ergonomics, especially for seated work.
- Under-desk cabinets are attached to the table frame, leaving the floor space free and allowing the cabinet to be repositioned under the work surface. The cabinet can also be removed and relocated entirely under a different work surface.
- For standard solutions, we have selected high-quality, commonly used options in terms of dimensions and materials.
- Custom solutions are always tailored to meet the specific needs of the customer.

Description	Product code	Standard dimensions [mm]				Additional information
		Width	Depth	Worktop height	Total height	
Module	RM-T2	900, 1200, 1500, 1800	750	manually adj. 750-1200	2100	without upper cabinets (to be selected separately)
Module, electric height adj.	RM-S-T2	900, 1200, 1500, 1800	750	electrically adj. 750-1200	2100	without upper cabinets (to be selected separately)
Module with upper shelves	RM-YH-T2	900, 1200, 1500, 1800	750	manually adj. 750-1200	2100	incl. 3 pcs of height adj. upper shelves (with raised back edge)
Module, upper shelves, electric height adj.	RM-S-YH-T2	900, 1200, 1500, 1800	750	electrically adj. 750-1200	2100	incl. 3 pcs of height adj. upper shelves (with raised back edge)
Module with upper cabinets	RM-Y-T2	900, 1200, 1500, 1800	750	manually adj. 750-1200	2100	incl. upper cabinets with framed glass doors
Module, upper cabinets, electric height adj.	RM-S-Y-T2	900, 1200, 1500, 1800	750	electrically adj. 750-1200	2100	incl. upper cabinets with framed glass doors

Custom

In addition to standard models, we also manufacture workbenches according to customer specifications. In custom solutions, dimensions, materials, and features are entirely up to the customer.

Feel free to ask our experts for more information, and let's design the right solutions together!

Additional information

Installation mehod	Free-standing on the floor, adjustable pads as standard. Sink tables need to be mounted.		
Materiaalit	Worktop material is acid- and chemical-resistant solid laminate (T2). Other options are also available; please read more on the Worktop Materials page. The frame is made of powder-coated steel to meet laboratory environmental requirements. Upper shelves are P5 class chipboard with high-pressure laminate surface.		
Colour	Standard white, other colours by order.

Load capacity	Manual height adjustment: Recommended load capacity is 200 kg per table, which typically provides sufficient rigidity considering sway and deflection of the surface. Maximum load capacity is 400 kg per table; this value should not be exceeded. Higher load capacities are also possible; please inquire with our experts for more information. Electric height adjustment: 240 kg per table (2 electric legs). Higher load capacities are also possible; please inquire with our experts for more information.	
Electric height adjustment	With 3 memory locations. Soft start and stop. The table comes standard with a collision detection sensor.	
According to order	Upper cabinets, electrical systems, lighting, and taps with sinks are designed and installed as needed	
LED light strip (optional)	Neutral white 4000 K, light output 1080 lm/m, power consumption 9.0 W/m, CRI >80, IP66
