Electric office desk

- The quiet, stepless height adjustment allows easy and quick changes to the working position.
- The programmable memory settings simplify the use of different working heights.
- Under-desk cabinets or drawers with castors are also available for use with the table.
- We have selected high-quality materials and commonly used dimensions for standard solutions.
- Custom solutions are always tailored to meet the specific needs of the customer.

Feel free to contact us! Our experts will be happy to help you choose the right solutions.

Standard

Description	Product code	Standard dimensions [mm]			Additional information
		Width	Depth	Height	
Electric office desk	RT-S-T1	1200-1800*	600, 700**, 800	640-1290	

* Widths available in 100 mm increments.
** In tables with a depth of 700 mm, a 100 mm deep free space remains for building services (e.g., utilities).

Custom

In addition to standard models, we also manufacture desks according to customer specifications. In custom solutions, dimensions, materials, and features are entirely up to the customer.

Feel free to ask our experts for more information, and let’s design the right solutions together!
