

Traps and dilution traps

Dilution traps for safe management of solid sewage in the laboratory and science classrooms.

- Chemically extremely resistant materials.
- Optimized shape prevents blocking.
- Easy to empty, just screw open.
- We do not recommend the use of ordinary traps in laboratories.
- Our selection also includes flexible drain connections for electrically adjustable desks with sinks and fume cupboards. For further information please contact our experts.

Product information

Description	Product code	Connections inlet / outlet	Volume	Additional information
Dilution trap for one sink, glass	EJKC	1.5" bsp / D 40 mm	2 l	Material PP/glass (3.3. borosilicate), one inlet connection.
Dilution trap for one sink, polyethylene	EJKA	1.5" bsp / D 40 mm	2 l	Material PP/PE, one inlet connection.
Dilution trap for multiple sinks	EJKB	3 x 1.5" female / 1.5" male	4.5 l	Material HDPE, three inlet connections.
Trap, model S	EHJS	D 50 mm / D 50 mm	-	Material HDPE, D 50 mm.
Trap, model P	EHJP	D 50 mm / D 50 mm	-	Material HDPE, D 50 mm.
