Portable glove bag

Lightweight, movable, single-use tool

The Erlab CaptAir Pyramid portable glove bag fulfills the requirements for laboratory or field work.

- The Pyramid is designed to provide protection against dangerous and contaminated samples.
- The sample can be placed in the pyramid, sealed and taken to a laboratory for further examination.
- The Pyramid portable glove bag is made of high-grade, transparent PVC plastic, and each pyramid is leak-tested (2.5 mm Hg) and equipped with a serial number of safety certificate.
