O-LPA Laboratory Bench

- Student work is an important part of studying natural sciences. A spacious and well-equipped laboratory bench makes work easy and safe, even with a bigger group. OPPILab workstations are made of high-quality materials that withstand chemicals and demanding use.
- Materials, handles and mechanisms are selected in accordance with the VISULab range, either from the Standard collection or, alternatively, customized according to the customer's requirements (Custom). Our experts will help you choose the right quality category. Read more about quality categories under the VisuLab-system.
- All our furniture can also be made to measure.
