Draining rack

- A draining rack makes it easy to dry glassware in the laboratory.
- Our range includes draining racks with both fixed and changeable rods.
- Model ETTA is made entirely of polypropylene. These racks are also available in tailored sizes. Ask more from our experts!
- The material of model ETTB draining rack is PVC, rods polypropylene. The rods are individually placed into the holes of the draining rack and are clicked into place. Their positions can be changed at any time.
