Body and eye shower, floor-mounted

Floor-mounted body and eye shower with exposed inlet hose. (Product code: BRVSSL-600)

- The combination shower allows rinsing of both the body and eyes, either separately or simultaneously.
- Its simple and streamlined design ensures very easy use.
- The eye shower is extremely user-friendly, as the flexible connection hose allows it to be lifted to a convenient position for the user.
- The dual-nozzle eye shower enables safe rinsing of both eyes at the same time.
- Protective covers on the eye shower nozzles keep them clean and ready for emergency use.
- The pipe material is suitable for potable water systems, allowing direct connection to the building’s water pipes.
- The exposed flexible 700 mm inlet hose makes installation straightforward.
- A thermostat is available to provide warm rinse water. (Product code: BRTRVS)
- The purchaser is responsible for necessary waterproofing and drainage.
