

VISU Pro Standard Model 3

Worktop ceramic, optional compressed air tap, polypropylene interior, vertical sash

VISU Pro Fume cupboard enables the safe processing of harmful materials and gases.

- **High quality** - Materials for professional use and finished design, almost maintenance-free.
- **Ergonomic** - Clear and optimal design of details.
- **Space saving** - The largest interior volume of the collection in relation to the external dimensions.
- **Safe** - The air suction is on the full width of the fume cupboard on upper and lower edge of the inner back wall.
- **Ecological** - Designed and manufactured responsibly in Finland, made to last for decades.

Selection of a suitable fume cupboard

See the table below to select different properties. We always equip the fume cupboards according to customers' needs. Feel free to contact us, and we will design suitable solutions together!

Delivery and installation

Fume cupboards are delivered, if so agreed, installed in place, ready to be connected to building services systems. A fume cupboard must be connected to a separate exhaust air duct. The water supply, drainage, gas and electricity work must be performed by professionals.
