Acoustic Divider

L-shaped acoustic divider designed for use in laboratories and cleanrooms with regular disinfection procedures.

- Made of hygienic, coated Class A sound insulation panel that repels particles and is resistant to mold and bacteria.
- No separate legs that could pose a tripping hazard.
- For standard solutions, we have selected high-quality, commonly used options in terms of dimensions and materials.
- Custom solutions are always tailored to meet the specific needs of the customer.

Standard

Description	**Dimensions [mm]**			**Additional information**
	Width *	**Depth** *	**Height**	
Acoustic Divider	650, 1250, 1850	650	1200, 1800	L-shaped

* Inner width and depth -50 mm from the dimensions above.

Custom

In addition to standard models, we also manufacture acoustic dividers according to customer specifications. In custom solutions, dimensions, materials, and features are entirely up to the customer.

Feel free to ask our experts for more information, and let’s design the right solutions together!
